[Center on Education & Lifelong Learning Indiana University, Bloomington](#)

### Attend the Conference to:

- Learn from state and national experts
- Gain access to new resources and interventions
- Learn how to create and improve universally designed classrooms, schools & districts
- Network with speakers, exhibitors, and other school district personnel
- Earn Professional Growth Points or Continuing Education Units

### Keynotes:

#### [Shelley Moore](#)

*Shelley is a teacher, researcher, speaker and storyteller who has worked with schools nationally and internationally to support practical, evidence-based approaches to increase access for all learners.*

#### [Katie Novak](#)

*Katie is an internationally renowned educational consultant, author and educator. Katie's presentations focus on the implementation of inclusion practices, Universal Design for Learning (UDL) and Multi-Tier Systems of Supports (MTSS).*

**Guest Presenter, [Allison Posey](#).** Allison is a recognized international speaker. She develops content and materials to support the design of learning experiences to reach and engage neurodiverse learners. She leads professional development programs and opportunities to implement Universal Design for Learning and works to integrate current understandings from brain science with instructional practices.

**Guest Presenter, [Loui Lord Nelson](#).** Loui is an internationally recognized leader in Universal Design for Learning (UDL). A former special education teacher, she held the first know school district-based UDL coordinator position. She is an author, podcaster, blogger and technical assistance provider in education. She has been awarded her postdoc by CAST and has influenced policies and educational practices in the US and abroad.
