Intended for:
K-12 Educators interested in increasing the impact of their co-teaching partnerships. Come with a current or future teaching partner, if possible!

Topic:
This workshop will engage participants in a busy and fast-paced day of activities designed to build the skills necessary to deepen collaborative partnerships in schools. The training focuses on a four-part framework that helps teams establish professional relationships, co-plan instructional activities, deliver co-taught lessons, and reflect and expand their work within the broader context of their schools.
